3:30	Independent work	Independent work	Independent work	Independent work	Independent work

There are daily assignments on Google classroom and Mobymax. That should be done during the Independent work (Office hours) time slots.

All The Green Time is classroom time, where we will be online.

The Yellow time is our start time, Please make sure the students get up and ready in the morning to continue to establish a routine of getting ready and started every day by 8.

The Red time is mandatory weekly training, so I can respond to help or look into something if you need me but will be in a meeting for the most part.

Please help me with the student's attendance. They need every hour they can get, and it's difficult for them to be as motivated but we have to keep them going. Thanks again for all your time and efforts.
